WALKS INTO THE LAKE.

Broods Over Illness Believed to Be Largely Imaginary.

ENGAGED TO EL PASO MAN

Miss Mary Field Werne Had Often Threatened to Terminate Her Mortal Career, Finally Doing So at the Foot of a Chicago Street.

Chicago, Aug. 28.—Walking into the water of Lake Michigan at the foot of Fifty-sixth street, due to despondency because of illness that was largely imaginary, which, she claimed, prevented her marrying a devoted sweetheart, Miss Mary Field Werne committed suicide. A search of her room disclosed a brief farewell message to her father and the man she had hoped to marry, George Mansfield, a traveling salesman of El Paso, Tex. Miss Werne had often threatened to jump in the lake if she was not soon sufficiently "recovered to marry George."

The girl graduated from a private seminary at El Paso and broke down from overstudy some months ago. Since the death of her mother, ten years ago, the young woman, who just passed her twenty-first birthday, spent most of her time with her sister, Mrs. E. French, at El Paso. It was there, as a school girl several years ago that she first met and fell in love with Mansfield. Her relatives approved the match, but prevented a wedding ceremony from taking place last spring because of her mental condition. This, it is said, aggravated her ailment.

In the hope that a change would improve her condition, she was sent to another sister, Mrs. Volney Bryan, at Louisville, Ky., the place of her birth. Subsequently she went to the third sister, Mrs. Miles Turpin of Richmond, Va. Eight weeks ago her father decided that she ought to come to Chicago. For a brief time she got along nicely, but began brooding over the postponed wedding.

DEPUTY GAME WARDEN SHOT.

A. R. Pearson Sustains Mortal Wound Few Miles From Beaumont.

Austin, Aug. 28.—Game Warden Lorraine received a telegram conveying the information of the fatal shooting of A. R. Pearson, a deputy game warden, which occurred at China, a few miles west of Beaumont. The cause of the shooting or how it occurred was not given, but Lorraine is inclined to the belief that it was an accident.

It was announced by the executive department that Governor Campbell will not be able to accept the invitation to deliver an address at the Labor day celebration at Houston. The governor will be back about Monday and his official duties will prevent him from accepting the invitation extended by labor unions of Houston.

The department of agriculture is flooded with requests from farmers over the state requesting copies of corn and other bulletins issued by the department. The department is to distribute over 25,000 copies.

ELEVEN LIVES LOST.

Cloudburst Causes a Flood to Descend Upon Folsom, N. M.

Folsom, N. M., Aug. 28.—A flood, due to a cloudburst in the mountains west of this city, descended upon Folsom at midnight Thursday night. Eleven persons lost their lives, as follows:

E. Wenger, wife and daughter, 38 Lucy Creighton, 38 Rook.

N. Wheeler, his wife, sister-in-law and three children.

houses were wrecked and completely swept away.

Only Two Survivors.

Aug. 28.—News of the sinking of the British steamer Dunearn at but two of the fifty-five crew members were reported on Aug. 26 off the Island of Kluhlu, in a report received from the same island.

BOTH HAINS HELD.

Magistrate Holds It Is Not a Bailable Case.

New York, Aug. 28.—Captain H. C. Hains, Jr., and his brother, T. Jenkins Hains, were held without bail for the action of the grand jury on the charge of murdering William E. Annis at Bayside, L. I., about two weeks ago. The men were arraigned in Magistrate Gilroy's court at Long Island City. T. Jenkins Hains was accused of being accessory to the murder, while the captain was alleged to be the principal. It was announced that it was the intention of Captain Hains' counsel to plead insanity as his defense, together with sensational charges which Captain Hains' counsel made against the captain's wife, involving the alleged confession by her of improper friendship for Annis. This has given the case unusual interest. It was expected counsel for T. Jenkins Hains would endeavor to have the charges against him dismissed on the ground that he took no actual part in the killing; that all he did was to protect his brother.

The Hains brothers were taken from Queens county jail, handcuffed together and rode on a street car in the custody of a deputy sheriff to Magistrate Gilroy's court. Captain Hains, who when he last appeared in court wore the uniform of his army rank, was clad in citizens' clothes, and his sallow and unshaven appearance indicated confinement in jail had affected him.

FROST NOT FAR OFF.

Decided Drop in Temperature In Georgia and the Carolinas.

Atlanta, Aug. 28.—Georgia and the Carolinas awoke Friday morning facing a drop in the temperature which threatened to add to the suffering of those who had been made homeless by the floods this week. The drop in the thermometer came during Thursday night, the mercury reaching near the frost point in some sections.

Reports from Augusta indicate that the water has been practically cleared from the streets and that the work of cleaning the flooded buildings is progressing rapidly. The death list remains at five.

From Spartanburg, Greenville and Columbia, S. C., reports show the danger has passed throughout the state. The flood damage is heavy in some sections, but chiefly to crops. The cities in themselves have suffered but little. Telegraph communication is slowly being resumed.

Many Bridges Destroyed.

Spartanburg, S. C., Aug. 28.—By reason of the crippled telephone system throughout the county and refusal of local railroad officials to give out information Spartanburg is in the dark as to the extent of the flood havoc. The only authentic information is as to the destruction of country bridges, their value being estimated at \$200,000. Destruction of crops is beyond accurate estimate. The flood is subsiding and all streams are falling rapidly. This city is still dependent upon the local auxiliary plant for electric lights and power. The Broad River plant of the Spartanburg Electric Manufacturing and Power company, twenty miles north of here, is still out of operation.

Buildings Collapse

Augusta, Ga., Aug. 28.—The flood has apparently damaged the foundations of some buildings in the lower part of the city. The central grammar school collapsed, also the walls of the National Biscuit company. The underpinning of the Port Royal bridge has been washed away.

Canal Zone Census.

Colon, Aug. 28.—The recent census gives the total population of the canal zone as 50,003, of which 25,000 are employed by the isthmian canal commission and the Panama railroad. Of the population 6,863 are Americans.

Dole Retains Title.

New Orleans, Aug. 28.—Dole defeated Avenue and retains the title of champion amateur lightweight wrestler of the world.

GOVERNOR FORT FIRM.

New Jersey Executive to Stand by His Proclamation.

Seagirt, N. J., Aug. 28.—Governor Fort made the following statement concerning his proclamation and the defiance of Atlantic City that he dare not call out the militia to enforce the Bishop law:

"I will stand on my proclamation unequivocally. I mean every word. The people will learn that I am not attempting to intimidate by threats."

Through a member of Governor Fort's "summer cabinet" it is learned that before issuing his proclamation he sounded the attitude of various members of the legislature and was given the assurance that if he called a special session they would stand by

GOVERNOR FORT.

him and provide whatever assistance he required to enforce the laws at Atlantic City. He was assured that despite the revolt at Atlantic City the legislature would authorize him to enforce the law there even if it were necessary to patrol the resort with troops and placing it under martial law. Thereupon the proclamation was issued with the threat of a called special session. It is said on the same authority that the governor did not receive the same assurance on his desire to obtain authority for the removal of officers who fail to perform their duties. He asked the legislature for this power in the past and it has been denied.

It is fully believed here that next Sunday Atlantic City will continue its defiance of the governor and be as "wide open" as in the past.

Saw Much Service.

Pensacola, Fla., Aug. 28.—Charles H. Hill, a native of Wisconsin, during the past twenty years holding a commission in the American army as first lieutenant, which he resigned to become captain in the Brazilian navy, commanding the cruiser Niteroy, and who afterwards was rear admiral in the Chilean navy, died here. In addition to serving in these navies, Hill was a captain of volunteers in the Spanish-American war, and when later mustered out of service went to South Africa, where he was commissioned captain in the Boer army, serving under General Cronje.

It is said that Hill, at the time of his death, was reduced financially to the verge of pauperism.

Three Suspects Arrested.

Jackson, Miss., Aug. 28.—Three strangers have been placed in jail here on suspicion of being implicated in the murder of a showman named Driesbach at Lexington, Ky., a few days ago. One of them answers the description sent out by the Lexington police of Harold Lambie, the murderer, in every particular. He denies being in Lexington, but admits he has been following shows. The suspects gave their names as Walter and Warren McClure, twin brothers, and Harry Adams, all claiming Boston as their home. Photographs of the trio have been forwarded to Lexington.

Cotton Bagging Secured.

Jackson, Miss., Aug. 28.—J. L. Collins, state business agent of the Farmers' union, has succeeded where his predecessor failed in securing cotton bagging to wrap the present crop. He is sending out official notices that the cotton mills at Wesson, Miss., have contracted to furnish the bagging, and are now turning it out in seventy-yards rolls. He congratulates the union, and urges every member to use it.

Remains a Mystery.

Atlantic City, Aug. 28.—The shooting of Charles B. Roberts, a financial and clubman of Baltimore, on the boardwalk, remains a mystery. Mrs. Williams, wife of one of Roberts' friends, who was with him in a chair when he was shot, says a man who was masked, placed a pistol to Roberts' side and fired. The affair has caused a big sensation here and Baltimore and further developments are awaited with interest.

Spill Considerable Beer.

Oklahoma City, Aug. 28.—Eight hundred barrels of beer, valued at \$8,000, belonging to a local brewing company, were emptied into a sewer in the presence of State Dispensary Agent Rosser and Revenue Collector Howard.

Atlantic City must be about the limit. HEALING MUD.

Cures Rheumatism and Other Diseases.

Victoria, Texas, August 27.—What seemed to be an unpleasant misfortune to the rheumatic cripple, Guy Stapleton of Victoria, when he was thrown from his horse into the pool of mud at Miracle, four miles south of here, some months ago, has proven to be one of his greatest blessings and a boon to mankind. He was cured of his rheumatism and passed the glad news on till several hundred have bathed in the magic mud and found relief. People are coming here from all parts of the State and being cured. The curative properties of the mud do not appear to be confined to rheumatism, as various skin diseases, eczema in particular, find almost instant relief. Many troubled with liver complaint are benefited. The mud is found in a very low piece of land on which a peculiar reed grows. The soil is very black and has a potent smell of sulphur and oil.—Houston Post.

THE COTTON MARKET.

The cotton market has remained dull throughout the past week, both sides of the speculative element waiting and watching crop reports, while on the one side the mills were demanding spot cotton, on the other hand selling was brisk for this season of the year. In fact it was a source of comment in the daily press Tuesday that Texas sales were so large as to cause the spinners to estimate an unusually large crop. Thus it will be seen that the early sellers are depressing prices and throwing away their own money. Nobody is predicting lower prices, while it is well known that the crop cannot possibly exceed the strong demand. For your own sake, if not for your neighbor, hold your cotton off this low market.—Co-operator and Farm Journal.

TWO WAYS OF VISITING THE SICK

There are people who "visit the sick," in accordance with the Biblical injunction. Eli Willis was sick unto death. He had been unable to prepare his land for crops, and there promised to be distress. A number of neighbors came by appointment, and brought their dinners with them. Before night they had plowed ground, harrowed it, planted corn and a garden, and the cotton land was ready for planting. A tearstained face at the window spoke thanks of neighbors, and the "thank you, boys," was a blessing.

These were better than those of poor old Blank, who came many miles to sit up with him, in crowds, making hard work for his family, and compelled him to mortgage his team to pay for the food they ate.

Were these people his neighbors?—Farm and Ranch.

INFANTRY ON PARADE.

Asbury Park, N. J., Aug. 28.—This was the day of the annual baby parade, the day when visitors come from far and near to enjoy a gorgeous pageant of life and color that has become an established institution in connection with the summer festivities at this noted resort. This year the spectacle of marching infantry afforded several new and extremely attractive features.

The parade was composed of ten divisions. More than five hundred children between the ages of three months and fifteen years were to be seen in the division allotted to doll coaches, go-carts, baby carriages, express wagons, bicycles, floats, costume and fancy dress, burlesque, college colors and pony carts. Each division was headed by a company of boys in Rough Rider costume.

ANCIENT BOMB SHELL FOUND.

While digging a hole for a telephone pole in an old road near the depot Tuesday, Mr. John Lumpkin extracted an old bomb shell, which weighed fifteen and one-half pounds. Mr. F. W. C. Karney experimented with it and discovered that it contained powder and quicksilver. The powder was wet. This bomb is thought by some to have been lost during the civil war, while others contend that it is a Mexican munition of war. How it became buried to the depth of three feet is a mystery. Mr. Karney has the bomb, and those wishing to inspect it can call on him.—Hearne Democrat.

MORE BANK TALK

DID it ever occur to you why all good business men keep a checking account with a bank? We will tell you. It enables them to keep their funds in a more secure place than the office safe. It gives them a better standing in the business world. It enables them to pay their bills by check, the returned check being a receipt. Individuals find a checking account very convenient and a source of saving. Money in one's pocket is often spent on the spur of the moment, while one is disposed to think twice before drawing on his balance in the Bank.

MURDERED AND THROWN TO THE HOGS.
Young White Man Atrociously Assassinated at Mudville—Negro Under Arrest.
Charged with the murder of Harry Williams, a young white man, in a most atrocious manner, Felix Brown, a negro, was late last evening lodged in the county jail by Sheriff Nall and Deputy Conlee.
The events leading up to Brown's arrest constitute one of the most horrible assassinations in the annals of crime in this section; a deliberate and fiendish murder, and a disposition of the body unparalleled in its heartlessness and atrocity.
Early yesterday morning negro stock tenders discovered a dead body, partially devoured by hogs, in an enclosure near the store of H. B. Steele at Mudville, a small settlement ten miles west of here on the I. & G. N. railroad, and though badly mutilated and torn, the remains were positively identified as Harry Williams, a young white man employed by Mr. Steele. Three bullet holes, two in the breast and one in the back, told the story of his tragic death. The sheriff's department here was at once notified and Sheriff Nall and his deputy, J. D. Conlee, at once repaired to the scene of the crime. An investigation developed the fact that the dead man had a short time ago charged Brown with the theft of corn from Mr. Steele's barn and that the negro had personally resented Williams' accusation.
Thursday evening it is stated, the young white man was in company with Brown and another negro until a late hour, and after their separation, the two negroes remaining together, Brown asked his companion to precede him, when Steele's store was reached, saying that he would overtake him. Shortly after Brown was left alone three pistol shots rang out.
Very little is known of Williams. He drifted into Mudville during the spring and readily secured employment with Mr. Steele. He continued in his employ throughout the interval up to his death and occupied a room over the store which overlooked the lot where the body was found.
Dozier, the negro magistrate of that precinct, held an inquest over the remains and rendered a verdict in accordance with the facts. The wounds were apparently inflicted with a large calibre revolver and either of the three would probably have been fatal.
Brown, the negro under arrest, made no effort to escape. He remained in the settlement throughout the investigation and when apprehended endeavored to cast suspicion on another darky, offering no substantial evidence however.
As stated above, the murdered man is practically unknown. Neither the fact that he has living relatives, nor their whereabouts could be learned, and the remains were interred at Mudville. Meantime every effort will be made to communicate with a possible claimant of the body.

St. Louis.
Friends of Congressman Gilbert N. Haughen of the Fourth Iowa district have started a campaign for him as a compromise candidate for United States senator to succeed the late William B. Allison.
Prior to 1824 no record of the so-called "popular vote" for president of the United States was made. But from 1824 to 1904 the popular vote increased from 352,062 to 13,510,708. The vote of the nation in 1824 was less than that of Kansas in 1904.
George N. Tillman, who has been nominated for governor of Tennessee by the so-called Evans-Sanders wing of the Republican party in that State, was a candidate for the same office in 1895, on which occasion he polled nearly 150,000 votes against "Bob" Taylor.
The Democrats believe they have a chance to carry California for Bryan. The State was carried by Cleveland in 1892 by 44 votes, but one of the ten electoral votes was cast for Harrison. In the three succeeding presidential campaigns the State was carried by the Republicans.
Believing Illinois to be a doubtful State, the Democratic campaign committee will put some of its foremost speakers on the stump there. Among those to be heard are Judge Alton B. Parker of New York, Governor John A. Johnson of Minnesota, Senator Gore of Oklahoma, Governor Folk of Missouri and Senator Culberson of Texas.
Ex-Senator George L. Wellington of Maryland, who supported Bryan in 1900, has come out for Taft.

"THIS IS MY 65TH BIRTH-
DAY."

David B. Hill.

David Bennett Hill, former United States senator from New York and for a number of years one of the most influential Democratic leaders in that State, was born in Havanna, N. Y., August 29, 1843. He was educated at Elmira Academy, admitted to the bar in 1864, and in the same year became city attorney of Elmira. A few years later he was fairly launched upon an active political career, and in 1870 he was elected to the General Assembly, to which body he was several times re-elected. 1880 Mr. Hill was elected alderman of Elmira, and two years later he became mayor of that city. His next public office was that of Lieutenant-governor of New York, to which he was elected in 1882, and in 1884 he succeeded Grover Cleveland in the governorship. Governor Hill was re-elected in 1885 and 1888, and was elected to the United Senate in 1891. Since his retirement from the senate in 1897 he has taken little active part in public affairs.

**NOTES FROM THE LABOR
WORLD.**

The American Brotherhood of Cement Workers will hold its convention at Milwaukee, Wis., September 2. The annual convention of the International Association of Machinists will be held at Denver, Colo., on September 7.

There is a movement under way to organize a building trade section of the American Federation of Labor in Fargo, N. D.

The International Brotherhood of Painters and Decorators of America has increased its membership more than 6,000 since April 1.

The American section of the boot and shoe workers' international body now has more than \$100,000 in its emergency fund, deposited and bearing interest.

In Harrisburg, Pa., a city ordinance has been passed, which prohibits the employment of foreign labor on any municipal work undertaken in the future.

The only industries employing children in large number are the glass, shirts, tobacco, cigars and cigarettes and the textile industries throughout the country.

The officials of the International Brass Molders' Union, which was organized in October, 1904, report that their membership has now reached 10,000 in this country. The Union has established a sick benefit fund and also a death and burial fund.

The first annual report and balance sheet of the National Union of Journalists shows that the union, which twelve months ago had not one formally constituted branch, has now a large number in England and Wales, which embrace a membership of over 1,000.

State Coal Mine Inspector Young of Wyoming has recommended to the governor of that State that the Hana mine at Cheyenne be sealed forever as a tomb for the forty-nine miners buried there in an accident last May. The inspector says the management violated the laws governing the protection of underground workmen.

Printers are greatly interested in a movement to exhibit photographs and literature of the Union Printers' Home and Tuberculosis Sanitarium Annex at Colorado Springs, Colo., at the coming world's tuberculosis congress, which will be held in Washington, D. C., during the latter part of next month and which promises to be of great importance.

TAFT TO LEAVE HOT SPRINGS.

Hot Springs, Va., Aug. 28.—This resort, which has entertained more visitors during the past two months and occupied a larger place in the news of the day than ever before in its history, is almost ready to go into mourning. Judge William H. Taft, the "man who put Hot Springs on the map," has concluded his stay here. Feeling fit as a fiddle as the result of his daily open air exercise and rides and tramps over the mountains, the Republican presidential candidate takes his departure from Hot Springs this evening. He is going for a week's fishing in Lake Erie, at the end of which he is going to Cincinnati to enter upon the real work of the campaign.

TRAINS COME TOGETHER.

Conductor Graham and Engineer Ballard Instantly Killed.

Madill, Okla., Aug. 28.—Between Hamden and Madill a Frisco work train and passenger train No. 1 collided.

Conductor Graham and Engineer Ballard, in charge of the work train, were killed instantly and brakeman Thomas will die. The fireman was injured also.

None of the passengers or crew on the passenger train were hurt. The baggage and express car broke in two. The dead men lived at Fort Smith.

HOPKINS HANGED.

"Cut the Dog Loose and Let Me Die," His Last Words.

Muskogee, Okla., Aug. 28.—"I am an innocent man. Cut the dog loose and let me die."

This was the statement made by John B. Hopkins, the murderer of Lena Craig, a young schoolteacher of Ottawa county, as Sheriff John Luckey sprung the trap. Hopkins was a widower. Because Lena Craig would not marry him he shot her, cut her throat and then tried to kill himself Jan. 5, while traveling in a buggy.

Grooms Ministers, Brides Sisters.

Bay City, Mich., Aug. 28.—A double wedding, in which the grooms were ministers and the brides sisters and daughters of the officiating clergymen, took place at the residence of Rev. W. W. Hoyt, pastor of the East Side Free Methodist church of this city, father of the brides. The grooms were Rev. Albert Potbury, pastor of the West Side Free Methodist church, and Rev. Arthur D. Warren, pastor of the Free Methodist churches at Berry and Locke.

Cuban Election Nov. 14.

Havana, Aug. 28.—Presidential and congressional elections occur Nov. 14.

For Handling Cotton Crop.

Galveston, Aug. 28.—President Neill of the Texas Farmers' union, and over 100 managers of cotton warehouses over the state and Oklahoma are here for the purpose of establishing an agency for handling the coming season's crop. The epitome of the meeting is Galveston is the Texas spot market and that much good will be accomplished for the farmers of the two states.

The Galveston cotton factors are bankers agreed to take care of the cotton, advance money and sell when desired with the least possible charges. The plan will result with almost one-half the Texas crop of the coming season being marketed at Galveston instead of being sold at interior points.

Convicted and Fined.

Sulphur, Okla., Aug. 28.—Dr. W. G. Harry, charged with the murder of Dan Durgin near Crusher Christmas night, was convicted of assault and battery and fined \$100 and costs. Dr. Harry was accused of taking Durgin to his office to perform an operation and after scalping him, cut open his skull with a dull instrument.

Oil Company Chartered.

Austin, Aug. 28.—Ballard Oil company of Dallas, capital stock \$10,000, has been chartered.
